

PRICE GREGORY / WILLIAMS TOY DRIVE 2024 LOUISIANA ENERGY GATEWAY PROJECT

Price Gregory would like to thank all of the employees and entities who donated so generously to our toy drive.

We'd like to single out Williams Energy who donated numerous boxes of toys along with a visit from Santa who they seem to know personally!

We would also like to thank Laborer's Local 692 for their large donation from the union hall.

The TOYS FOR TOTS people were pretty big eyed when we pulled up with a 16 passenger van and 3 pickups filled with toys.

Quanta Services matched your cash donations which resulted in \$5,408 all together. We purchased toys with all of that money. The amount of toys we purchased was really close to what was brought in so we showed up with around \$10,000 of toys.

Just so you know a little history. Toys for Tots was founded in 1947 by a group of Marine Reservists in Los Angeles. The program is now national and is still run by the United States Marine Corps Reserve

We met the local volunteer, Todd Suire, who runs the program for Vernon, Allen and Beauregard Parishes. He informed us that they were providing toys to around 2,500 children this Christmas in these parishes, so what you brought was definitely needed. We toured the warehouse where some local ROTC teens were sorting what was brought in. It was pretty impressive.

Once again Thank You for your generosity. It was greatly appreciated.
